Adaptive Excel 365 Assessment

ISOGRAD (TOSA)

Ms fst_1644600 Ist_1644600

Skill Level: Productive - 3/5

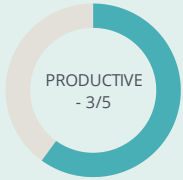

Time: 32:37

Test date: January 3, 2024

1. Result

SKILL LEVEL

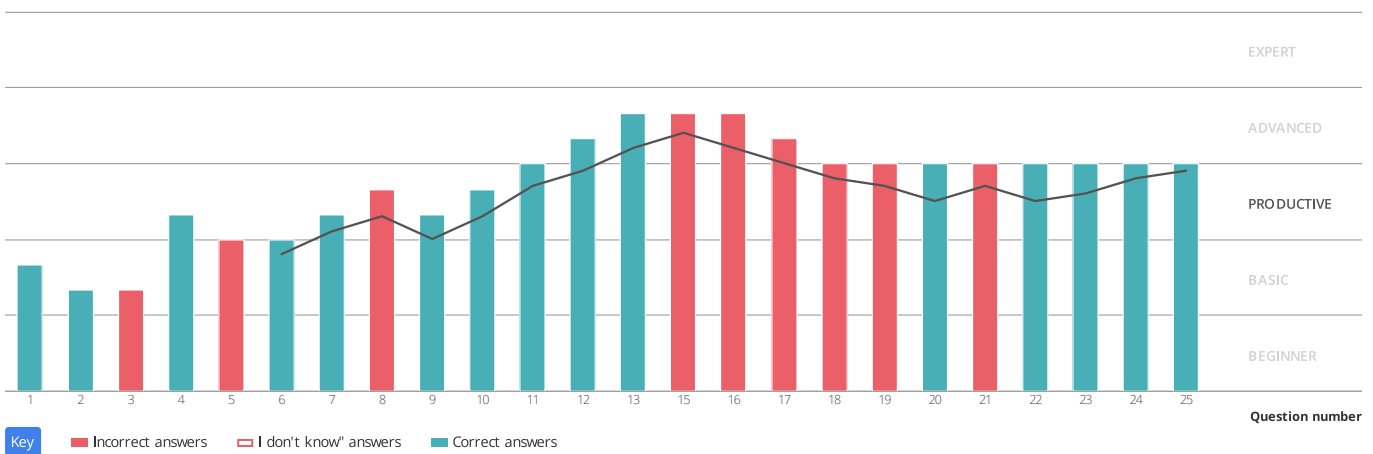

PRODUCTIVE
- 3/5

Based on the candidate's result of "Productive - 3/5" in the Excel 365 test, it can be inferred that the candidate possesses a moderate level of proficiency in various skill domains. The candidate is able to recognize and understand different Excel functions and methods, such as centering cell contents, making calculations with priorities, using Goal Seek tool for data manipulation, and applying conditional formatting techniques. Additionally, the candidate demonstrates practical skills by converting ranges into structured tables and creating custom color themes. However, there are areas where improvement may be needed as evidenced by difficulties encountered in tasks such as mastering structured tables and modifying sheet tab colors.

2. Analysis

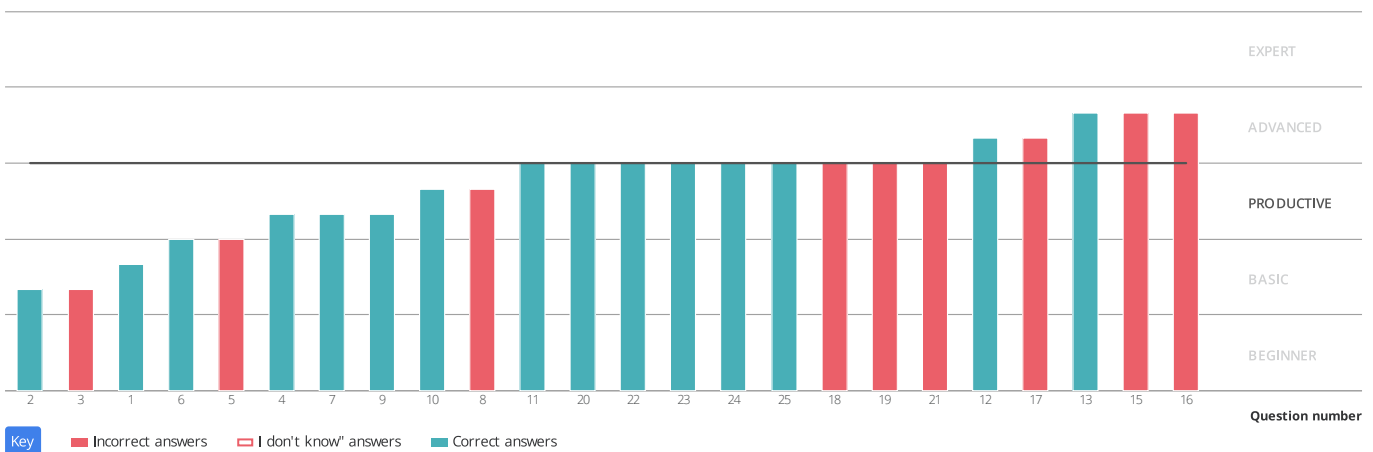

Progressive estimate of candidate level

This chart shows how the system adapted the difficulty level of the questions to candidate responses as the test progressed. The grey line shows the candidate's estimated skill level before each question.

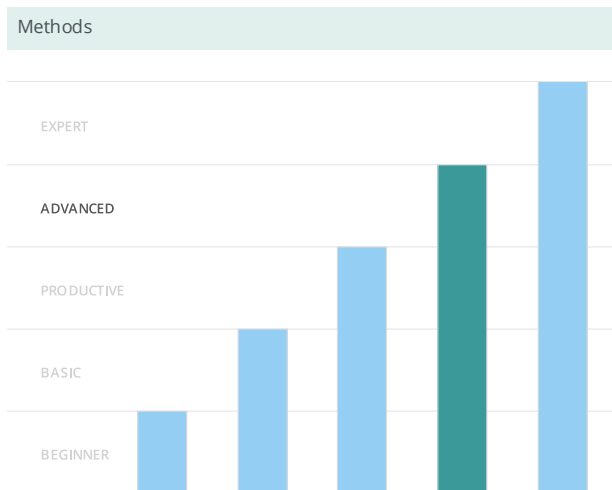

Questions ordered by difficulty level

This chart shows the questions the candidate was asked, by level of difficulty.

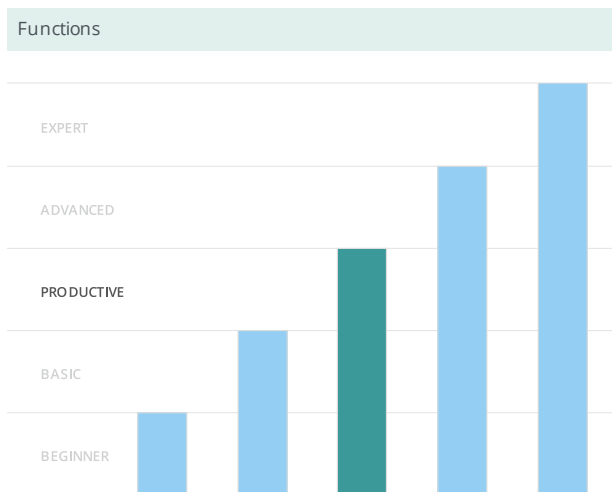

3. Domains

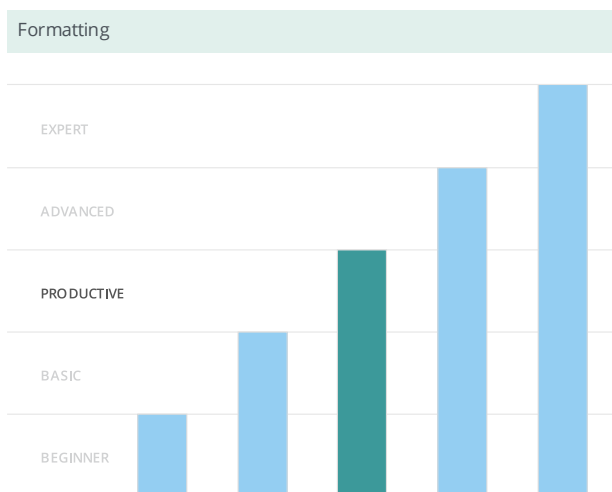

AI generated skills analysis Beta

This domain covers the Excel software environment, including window elements, ribbon customization, and Quick Access Toolbar. It also includes questions related to saving and printing documents in Excel, workbook layout, and document protection. The candidate is able to perform practical exercises such as converting a range into a structured table and adding a total or disabling automatic calculation. However, the candidate does not seem to know how to choose the Page Layout or master structured tables effectively. The skill level of the candidate on this domain is Advanced.

AI generated skills analysis Beta

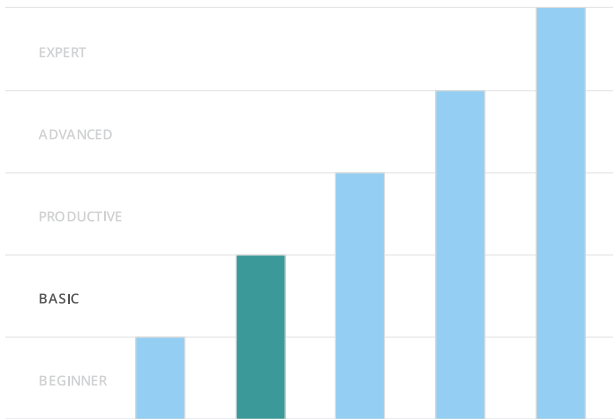

Questions in this domain cover formulas and functions ranging from simple computations to complex formulas like database functions and VLOOKUP. The candidate seems productive in recognizing effects of deleting cells used in formulas or making calculations with priorities but can't handle complex conditional formatting effectively. Additionally, successfully filling in Goal Seek dialog box has positively impacted their computed skill level on this domain which is Productive.

AI generated skills analysis Beta

The candidate has demonstrated proficiency in cell formatting, advanced number formatting, and conditional formatting. The candidate's skill level is 3/5 (Productive). The candidate is able to create custom color themes and understand complex conditional formatting. However, the candidate struggled with centering cell contents and choosing the page layout. In addition, the successful completion of a difficult practical exercise on converting a range into a structured table positively impacted the computed skill level of the candidate.

Data manipulation

AI generated skills analysis Beta

The domain covers questions related to basic data manipulation in Excel including cell formatting, charts, and pivot tables. The candidate's skill level is 2/5 (Basic). Although the candidate was able to use Goal Seek tool and fill in Goal Seek dialog box effectively, they struggled with showing grouped details using AutoFilter criteria as well as mastering structured tables.
